DIGITAL STORYTELLING THROUGH PHOTOGRAPHY: PEGGY PEATTIE'S "TALES OF THE STREET SAN DIEGO"

Peattie's lecture will center on her website Tales of the Street SD, a website about our shared humanity. Peattie has been telling the stories of America's homeless individuals for more than 30 years, 21 of them in San Diego. Peattie will share her experience photographing the "residentially challenged" people among us and her process of curating the photos on her website.
